Education

I. K. Gujral Punjab Technical University, Mohali Campus

Aug. 2019 - July 2023

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.16/10

Experience

Mind2web LLP

Aug. 2023 - Present

Software Engineer

Mohali, Punjab

- Integrated **Algolia's search functionality** to enhance product **search and filtering** capabilities, improving the overall user experience.
- Integrated a **webhook to synchronize data with Algolia**, ensuring that the most up-to-date information is consistently reflected in search results.
- Implemented a **cookie-based add-to-cart** mechanism for non-logged-in users, ensuring selected products are seamlessly integrated into the user's cart upon login.
- Designed and developed the Remodely platform, a bathroom remodeling solution featuring an admin panel for managing layouts, products, and eligibility criteria, along with real-time estimated price calculation.
- Migrated data from MySQL to MongoDB** using custom API endpoints to enable real-time synchronization, and addressed Node.js security vulnerabilities to reduce system downtime by approximately 75%.

Projects

Mingley | *HTML, CSS, JavaScript, jQuery, AJAX, PHP, MySQL, Bootstrap*

[Github](#)

- Built an **admin panel** with features to manage **user accounts**, including updating, deactivating, and deleting accounts, along with **real-time analytics** to track user activity.
- Developed a **user registration system** with **email authentication** and features like **posting content, likes, comments, and profile management**, enhancing user engagement.
- Implemented **social networking features** like **follow/unfollow, direct messaging**, and **user search** to help users connect with each other. Users could also **update and delete** their profiles.

Uniclub | *HTML, CSS, JavaScript, NodeJS, ReactJS, NextUI, MongoDB, Figma*

[Github](#)

- Developed a web application to manage **college clubs**, allowing easy sharing of **event details** and **club updates** through an **admin panel**.
- Built the project using **ReactJS, NodeJS, MongoDB**, and **NextUI**, providing a smooth **user experience** and handling data efficiently.
- Led the project as the **project leader**, managing tasks, coordinating the team, and guiding the project through planning, design, and development.

Technical Skills

Languages: C++, HTML, CSS, JavaScript, SQL, PHP, jQuery

Frameworks/Libraries: Node.js, React.js, NextUI, Bootstrap, Laravel, Codeigniter

Databases/Technologies: MongoDB, MySQL, RagicDB, Linux, GitHub, Figma, Canva, Algolia AI

Developer Tools: VS Code, Sublime Text, Android Studio

Achievements

Hacktoberfest

Nov. 2022

Final level achiever

[Badge Link](#)

- Contributed successfully to the **final (4th) level of Hacktoberfest 2022**, earning a badge for outstanding performance. This involved active participation in **open-source software development**, collaborating with the global developer community, and providing valuable code contributions.
